### Unit Review:

#### Autobiography 1: Emma

Last Friday morning Emma's sister wanted to go shopping for clothes. They went all day. Emmas was tired and didn't want to cook when she got home. She ordered food and her husband picked it up and they ate dinner.

Saturday the sun was shining. Emma sat outdoors and read the newspaper in the morning. In the afternoon she was watering the grass and saw an animal crawling. It was a turtle. She tried to find its owner knocking on doors but she didn't find anyone. She brought it home and put it in a box. At night, she and her husband went to watch their nephew play basketball. It was good and fun. Sunday morning, her parents and her husband went to a deaf church. Lunch time, her sister and she hosted a party for their aunt and uncle who are going to live in Mexico for 1 year. Her uncle works at the bank. They want to travel and sight- see on the weekends. In 6 months, Emma and her sister want to visit their aunt and uncle in Mexico to see the sights.

### **Autobiography 2: Billy**

Billy is tired because he vacuumed the floors and cleaned outside and fixed and painted the fence yesterday. This morning, he went to the dentist to clean his teeth and then after he helped his friend pack boxes to move to a new house. Tonight, his girlfriend is coming, so he will cook a Mexican dish. He hopes it turns out good. Tomorrow, he is going to a Mexican dancing class all day. Next Saturday, his ASL class is going to an amusement park. They will try new rides and practice signing all day. There are 18 girls and 6 boys in the class. Next Sunday, he wants to stay home and watch movies.

### **Autobiography 3: Sarah**

Her brother's boyfriend who writes children's books asked if she could draw pictures for his book. She works in a language lab, so she has learned how to draw on the computer. She will help him. Last Saturday, she drew a picture of a bird sitting in a tree. The bird was red with a yellow beak. Behind the picture are hills with rabbits jumping around. On the bottom of the picture is a house where a rat lives with its family. She didn't like the picture so threw it out. She will draw a new picture next Wednesday. Last Saturday night, her brother and his boyfriend went to a party so she babysat her nephew. They played checkers and read a book. He fell asleep and was cute. She liked babysitting him. Last Sunday morning, her sister, friend Judy, and Billy's girlfriend went to a zoo. She thought about volunteering at the zoo to help feed the animals. In the afternoon she stopped to pump gas and drove back home. She had a nice weekend.
