

---

Dear Mr.....,

I would like to take the opportunity to re-introduce myself to you and your practice. My name is Nathalee Walker, I am currently pursuing my Master's in Nursing with a concentration in Psychiatric Mental Health Nurse Practitioner (PMHNP) through Chamberlain University's CCNE accredited online program. I am currently working on securing my clinical rotation sites and am interested in any opportunities you may be able to offer me regarding clinical experience/rotation. Personally, I have benefited from your facilities services

Professionally, I have spent most of my nursing career working in mental health and addiction recovery and intend to specialize in psychiatric mental health upon degree completion. My clinical experience, motivation to learn, and genuine passion for this field of nursing make me believe that I can not only add to your practice but grow as a professional. As a thank you for dedicating time and preparing the next generation of APRNs, Walden University offers CEU opportunities to preceptors. I greatly appreciate you taking the time to read this and your consideration for clinical placement. Attached is a copy of my resume and the clinical rotation courses for which I am seeking a preceptor. For your convenience, I have also listed the dates of these clinical courses along with a summary of the clinical objectives. If you find that you, or someone in your practice, could assist me in my professional journey, then please contact me by phone at 773-954-8333 or email at [nyah95@gmail.com](mailto:nyah95@gmail.com) and let me know if we can work out an opportunity.

Warmest Regards,

Nathalee Walker RN

## CLINICAL ROTATION AND DATES

Each clinical experience must last for at least 8 weeks and be completed within 10 weeks of the specified academic quarter. There is no minimum number of patients to be seen but encouraged to see as many patients as possible for enriching experience. Medication management is **NOT** considered psychotherapy.

**June 01, 2020 - Aug 21, 2020**

**PSYCHOTHERAPY WITH INDIVIDUALS:** 160 hours. Focuses on therapeutic techniques used during psychotherapy sessions with individuals across lifespan. **Preceptor qualification:** PMHNP, psychiatrist, PMHCNS, licensed social worker, licensed mental health counselor, licensed psychologist, licensed/certified mental health professional that provides individual psychotherapy. Nonacceptable Sites: Home Health and Tele-Psych (80 people)

**Aug 31, 2020 - Nov 13, 2020**

**PSYCHOTHERAPY WITH GROUPS AND FAMILIES:** 160 hours. Focuses on treatment of the family unit. Emphasis on the benefits of group dynamic and effective techniques used in group therapy settings. **Preceptor qualification:** PMHNP, psychiatrist, PMHCNS, licensed social worker, licensed mental health counselor, licensed psychologist, licensed/certified mental health professional that provides individual psychotherapy. Nonacceptable Sites: Home Health and Tele-Psych (80 groups sessions)

**Nov 23, 2020 - Feb 05, 2021**

**PMHNP ROLE I: CHILD AND ADOLESCENT:** 160 HOURS. Introduction to PMHNP role in child and adolescent psychiatry. Emphasis on psychiatric and mental health disorders that begin in childhood/adolescence with focus on psychiatric assessment, differential diagnosis, application of diagnostic criteria, appropriate testing and diagnostic formulation. Learner will select a combination of psychotherapeutic modalities couples with psychopharmacologic approaches to treat common psychiatric mental health conditions in this population.

**Preceptor qualification:** PMHNP with prescriptive authority or psychiatrist that specializes in the diagnosis and treatment of children/adolescents.

**Feb 15, 2021 – Apr 30, 2021**

**PMHNP ROLE II: ADULTS AND OLDER ADULTS:** Objectives same as PMHNP Role I, just with focus on adult and geriatric populations. **Preceptor qualification:** PMHNP with prescriptive authority or psychiatrist that specializes in the diagnosis and treatment of adults/older adults.
