Hello my name sara an FNP student and I will be interviewing you today.

**Greet**  
05/11/18 12:39 PM  
CDT

Hey.

Can you please state your name for me?

**Question**  
05/11/18 12:39 PM  
CDT

Tina Jones.

Your date of birth?

**Question**  
05/11/18 12:39 PM  
CDT

February 17th.

Year of birth please? (Clarified to What year were you born.)

**Question**  
05/11/18 12:40 PM  
CDT

I was born in . . . [Ms. Jones reports correct birth year.] [AUDIO COMING SOON]

How old are you ms. Jones? (Clarified to how old are you.)

**Question**  
05/11/18 12:40 PM  
CDT

I'm 28.

What brings you in today?

**Question**  
05/11/18 12:41 PM  
CDT

I came in because I've been having breathing problems, and my inhaler just isn't working the way it normally does.

Why did you decide to seek treatment?

**Question**  
05/11/18 12:42 PM  
CDT

I came in because I've been having breathing problems, and my inhaler just isn't working the way it normally does.

I'm sorry to hear that you're having breathing problems.

**Empathize**  
05/11/18 12:42 PM  
CDT

Thanks for saying that.

What medical problems do you have?

**Question**  
05/11/18 12:43 PM  
CDT

Well. . . I've had asthma since I was really little, though for a while there it wasn't really much of a problem. And I have sugar diabetes, too.

What medication do you use for asthma?

**Question**  
05/11/18 12:53 PM  
CDT

It's just a regular Proventil inhaler.

How often do you use your Proventil inhaler?

**Question**  
05/11/18 12:53 PM  
CDT

I've been using it probably every. . . four hours or so, I'd say.

When did your symptoms start?

**Question**05/11/18 12:53 PM  
CDT

I don't know if I'd call it an asthma attack, but my asthma started acting up two days ago at my cousin's house. She has cats, and I'm allergic, so I'm used to it being a problem there, but usually the inhaler fixes it. . . it doesn't feel totally under control, though.

I'm sorry you're having difficulty with your breathing problems.

**Empathize**05/11/18 12:56 PM  
CDT

Thanks.

How long have you had breathing problems?

**Question**05/11/18 12:56 PM  
CDT

My breathing's been acting up off and on for the past two days.

How frequent are your shortness of breath episodes?

**Question**05/11/18 12:57 PM  
CDT

Maybe as much as every four hours? It's a lot.

And how long do your shortness of breath episodes last? (Clarified to how long does an episode last.)

**Question**05/11/18 12:57 PM  
CDT

I haven't had a full attack in years, but usually once I use my inhaler it only takes a minute or two for my breathing to go back to normal. . . that's not what's been happening recently, though.

How long did your last episode last?

**Question**05/11/18 1:00 PM  
CDT

I haven't had a full attack in years, but usually once I use my inhaler it only takes a minute or two for my breathing to go back to normal. . . that's not what's been happening recently, though.

How many times have you had breathing problems in the past 2 days?

**Question**05/11/18 1:02 PM  
CDT

Well. . . it's kind of hard to count because my breathing's been at least a little bad most of the past two days, but it's really acted up, like with wheezing and everything, probably every four hours or so--like five times each day.

Is your asthma keeping you up at night?

**Question**  
05/11/18 1:04 PM  
CDT

My asthma doesn't usually wake me up, but it has the past couple nights.

How severe are your symptoms? (Clarified to How bad was your asthma attack.)

**Question**  
05/11/18 1:05 PM  
CDT

My asthma used to be really scary. I haven't had a full attack in years, and if you had asked me before this I would have said my asthma wasn't that bad anymore, but the last couple days I've had a lot of trouble breathing.

How severe is your asthma?

**Question**  
05/11/18 1:06 PM  
CDT

My asthma used to be really scary. I haven't had a full attack in years, and if you had asked me before this I would have said my asthma wasn't that bad anymore, but the last couple days I've had a lot of trouble breathing.

Is there anything you can't do because of your asthma?

**Question**  
05/11/18 1:07 PM  
CDT

There usually isn't anything I can't do because of my asthma. . . I guess I try to avoid things that make my breathing worse, but that's about it. The past couple days, though, it's been hard to do anything.

Do you wheeze during an asthma exacerbation?

**Question**  
05/11/18 1:09 PM  
CDT

During a full attack, I would wheeze a lot, like I couldn't breathe at all, but until the past couple days, I would usually just wheeze a little when I had breathing problems.

Are you having any chest tightness?

**Question**  
05/11/18 1:10 PM  
CDT

It's not so bad right this second, but it's been pretty tight lately, like I can't take in air.

Have you been coughing?

**Question**  
05/11/18 1:10 PM  
CDT

I've been coughing a lot, yeah.

How long have you had the cough?

**Question**  
05/11/18 1:11 PM  
CDT

Since my asthma acted up two days ago.

How would you describe the cough?

**Question**  
05/11/18 1:11 PM  
CDT

Um. . . I guess I'd describe it as a small, dry cough.

What makes your cough better?

**Question**  
05/11/18 1:11 PM  
CDT

Drinking some water helps a little, as long as the water isn't too cold.

Have you tried to treat your cough?

**Question**  
05/11/18 1:12 PM  
CDT

I haven't taken medicine for it or anything.

Is your asthma worse at night?

**Question**  
05/11/18 1:13 PM  
CDT

It has been the past couple nights, yeah.

Does lying on your back make your asthma worse?

**Question**  
05/11/18 1:14 PM  
CDT

Just recently lying on my back has definitely made my breathing worse.

To try to help your breathing you may want to elevate your head with two pillows.

No, all I really use is my inhaler.

You take any over-the-counter medications?

**Question**  
05/11/18 2:24 PM  
CDT

I take Tylenol for a headache sometimes, or Advil for cramps, but not often.

How much Tylenol do you take?

**Question**  
05/11/18 2:24 PM  
CDT

I just take a couple. I usually get them at night from reading--squinting I guess--and so I take one and go to bed. [Nurse confirmed with Pharmacy: 1-2x acetaminophen 500mg]

How much Advil do you take for cramps?

**Question**  
05/11/18 2:25 PM  
CDT

I take three at a time. And I'd bet I take it up to three times a day. [Nurse confirmed with Pharmacy: 3-4x ibuprofen 200mg]

Do you have any allergies?

CDT

No, not that I know of.

When did your recent asthma problems start? (Clarified to What started your recent asthma problems? .)

**Question**05/11/18 2:27 PM  
CDT

This all started at my cousin's house. She has cats, and I'm allergic, so my asthma always goes crazy when I'm there.

Does being around dust trigger asthma?

**Question**05/11/18 2:28 PM  
CDT

Yeah, being around a lot of dust, especially hanging out in a really dusty house, can make my asthma act up.

Sorry to hear that about your asthma

**Empathize**05/11/18 2:28 PM  
CDT

Thanks for understanding.

Does climbing stairs trigger asthma?

**Question**05/11/18 2:28 PM

Do you have seasonal allergy triggers? (Clarified to do you have seasonal allergies.)

**Question**05/11/18 2:30 PM  
CDT

A little while ago, I had some seasonal allergies, but it didn't really bother my asthma, and it's better now.

Does anything at work make your asthma worse?

**Question**05/11/18 2:30 PM  
CDT

Well. . . sometimes when there's dust at work it can make my asthma act up, but that doesn't happen very often.

Do you see an asthma specialist?

**Question**05/11/18 2:31 PM  
CDT

I used to go to Dr. Dewitt, but she moved her practice recently. Luckily she's still been able to call in refills of my inhaler, but I haven't actually been in to see her in about two years.

Since you have asthma it is important to follow up on a regular basis with your asthma specialist

CDT

I've had asthma a long time. . . since I was really little.

How old were you when you were diagnosed with asthma?

**Question**  
05/11/18 2:50 PM  
CDT

My doctor told me when I was pretty little... I think I was about two and a half? I used to have a lot of trouble with asthma attacks back then.

Have you ever hospitalized for asthma?

**Question**  
05/11/18 2:51 PM  
CDT

I went a bunch of times when I was little, for asthma attacks.

When was the last time you were hospitalized for asthma?

**Question**  
05/11/18 2:52 PM

I used to go to the hospital a lot for asthma attacks, but not since I was sixteen.

Have you ever been put on a breathing tube?

**Question**  
05/11/18 2:53 PM  
CDT

You mean like, did they ever have to put me on a breathing machine? No, I haven't had an asthma attack that serious.

Do you use a chart to monitor your asthma?

Do you exercise?

**Question**  
05/11/18 3:01 PM  
CDT

It's really not my thing. I get some exercise by being on my feet at work and walking around campus, that sort of thing. But jumping around in spandex is not my idea of a good time.

I completely understand

**Empathize**  
05/11/18 3:01 PM

Have you been able to exercise?

**Question**  
05/11/18 3:02 PM  
CDT

Well, I don't exercise, really. I mean, I'm active -- I'm on my feet all day -- but I don't go running or stuff like that. I bet I'd get winded pretty fast, and I'd probably need my inhaler.

I completely understand.

**Empathize**  
05/11/18 3:02 PM  
CDT

I appreciate you telling me that.

Have you noticed anything at home that aggravate your asthma?

**Question**  
05/11/18 3:03 PM  
CDT

My asthma's almost always fine at home. . . I don't think it's anything there that's been making my asthma act up. We keep it pretty neat and tidy.

I would like to recommend a hypoallergenic bedding set

No. . . I'm too busy to take care of a dog, and I can't have cats because of my allergies.

Does anyone smoke in your house?

**Question**  
05/11/18 3:06 PM  
CDT

No, nobody at home smokes.

If exposed to secondhand smoke it is definitely a Asthma trigger.
