Upon achieving the 100% completion mark and completing all of the modules (NCLEX Strategies through Management), your Virtual-ATI Coach will analyze your results to identify any remaining deficits requiring additional review.

Only after you have completed all additional assessments, review recommendations, and the assessment scores indicate your readiness for the Virtual-ATI Predictor, will your Virtual-ATI Coach instruct you to move to the final module within the Virtual-ATI Review and complete the 150 item Comprehensive Online Practice Assessment.

## IMPORTANT:

**Only after all required items are completed will your Virtual-ATI Coach provide the instructions to complete the Virtual-ATI Predictor.**

<b>Green Light Expired</b>		
<p>The Virtual-ATI Green Light expires <b>3 weeks</b> from the date it was achieved. Graduates should test for NCLEX within three weeks of receiving the Green Light.</p>		

*Progression in Virtual-ATI is determined by individual graduate participation, performance, and active engagement in the review. Active engagement/participation in Virtual-ATI includes communicating with the Coach, taking assigned assessments, completing assigned remediation activities and focused reviews under the direction of the Coach.*

*Virtual-ATI will be accessible until the graduate passes NCLEX up to a maximum of 12-weeks. As the end of the review approaches, graduates should download the Post Review Study Guide Resources to continue to review and stay connected to content through their NCLEX date. As access ends, graduates may purchase an additional 12-week access for \$75. Repurchasing the review will provide an additional 12 weeks of review with Coach support to build knowledge and testing confidence for the NCLEX exam.*
